

International Mounted Games Association Compliance Sub-Committee

Work Order Document

Requested:	10/12/2014
Deadline:	Various deadlines depending on competition dates
Reference:	COM-201415-003
Name:	Pre- and Post- Competition Reports

Requirements:

For each IMGA sanctioned competition during the season a series of reports are compiled. There are at least two pre-competition inspection reports plus a post-competition report from the chief referee.

It is the responsibility of the Compliance sub-committee to ensure that these reports are correctly produced and forwarded to the Chairman for further distribution as required.

An effort should be made to ensure that these reports follow a consistent format and approach by providing a standard format (connection with COM-201415-001). Where necessary, restructuring may be required before forwarding to the Chairman.

In the case of pre-competition inspection reports there is a possibility that the reports will highlight deficiencies in the preparation for the competitions. In such cases the reports should include suggested actions to rectify these deficiencies. In some cases it may be required to engage with the IMGA executive officers if deficiencies are particularly serious.
