

## International Mounted Games Association Training and Qualification Sub-Committee

---

### *Work Order Document*

Requested:	10/12/2014
Deadline:	28/02/2015
Reference:	TAQ-201415-002
Name:	Referee Certification Courses

#### Requirements:

As has been the case for the previous two years IMGA will once again be expected to hold referee certification course(s) during 2015. Exactly how these courses are to be managed is the subject of TAQ-201415-001.

It is the responsibility of the IMGA Training and Qualification sub-committee to organise these courses, make sure all members are kept informed of arrangements, manage applications, carry out the courses themselves and publicise the results.

For 2015 there should be at least 2 courses (one in the southern hemisphere and another in Europe). IMGA will cover travel expenses for the individual running the course as well as the cost of renting a venue. Some or all of these costs however are to be offset against fees collected from the individual participants.

Courses can take place at any time during the year but details of timing, venue and logistics should be available by the end of February to allow potential participants to make necessary arrangements.

\* Although the policy document describing exactly how referee training, certification and assessment (see TAQ-201415-001) is unlikely to be signed off before the next AGM, all efforts should be made to ensure that the courses organised for 2015 as closely as possible follow the recommendations being set out in that document.
