

International Mounted Games Association Technology and Social Media Sub-Committee

Work Order Document

Requested:	08/12/2014
Deadline:	13/11/2015
Reference:	TSM-201415-005
Name:	IMGA Website

Requirements:

The official IMGA website (www.mounted-games.org) is the most valuable and comprehensive source of information about the internal workings of IMGA. Here we store all policy documents, procedures, meeting minutes, as well as the results hall of fame, competition calendar, and details about forthcoming competitions.

A great deal of work goes into maintaining the website, ensuring it is constantly up to date whilst at the same time always looking for additional information to include.

Website design technology is a rapidly moving field with new innovations constantly being released. With such new technologies come the opportunities for improvements to be made to the website in terms scope and quality.

It is the responsibility of this sub-committee to keep abreast of developments in this field and where applicable to look into the possibility of exploiting such developments to improve the official IMGA website.

Where such improvements may involve a financial outlay (for new software for example), this should first be discussed with the IMGA executive officers.
