

International Mounted Games Association Rules Committee

Rule Change Request Document

Name:	Jens Martin
-------	--------------------

Country:	Luxembourg
----------	-------------------

Summary of Change Requested:

Part 2 of a multi part Rule Change covering all games. Aim is to make the wording of all games consistent.

This one covers the Association Race.

Current Rule Book Wording:

Team (2010 rule book) :

Rider 1 starts with the container marked B and places it on the bin on the centre line, rides to the bin at the changeover end, collects the next container, returns to stack this on top of the previous container and then rides to cross the Start/Finish line. Rider 2 rides to the changeover end, collects the next container, places it on top of the stack on the centre bin and crosses the Start/Finish line. Riders 3 and 4 complete the course in the same way. At the end of the race, the stack in the centre should read M (green), G (yellow), A (blue), G (red), B (white) with M at the top. Boxes should be stacked by placing the bottom of one box onto the top of another and not on their side.

Pairs (2010 rule book) :

Rider 1 rides to the bin on the centre line, places the container upon it, rides to the changeover line, collects the next container and returns to stack this on the bin on the centre line. The remaining three containers are collected singly by either rider, provided that the second rider collects at least one container. At the end of the race, the stack in the centre should read M (green), G (yellow), A (blue), G (red), B (white) from top to bottom. Boxes should be stacked by placing the bottom of one box onto the top of another and not on their side.

Individual (2010 rule book) :

The rider rides to the first bin, places the container with the letter G on it onto the bin, rides to the changeover end, collects the next container and stacks this on top of the first container on the centre line bin. The rider collects containers, singly, stacking them on the centre line bin until all four containers are stacked and then crosses the finish line. If containers are upset or fall over, they must be re-stacked immediately, but not necessarily in the correct order. However, when the rider crosses the Start/Finish line, the stack of containers must read M (green), G (yellow), A (blue), G (red) from top to bottom. Boxes should be stacked by placing the bottom of one box onto the top of another and not on their side.

Suggested New Rule Book Wording:

Team:

Rider 1 starts with the white container marked B.

Rider 1 rides to the bin on the centre line, places the container on it, rides to the bin at the changeover end, collects the next container, rides to stack this on top of the first container, and rides to cross the Start/Finish line.

Rider 2 rides to the bin at the changeover end, collects the next container, rides to stack this on top of the other containers, and rides to cross the Start/Finish line.

Riders 3 and 4 repeat the actions of Rider 2.

During the game, the containers already stacked on the bin on the centre line must read B (white), G (red), A (blue), G (yellow), M (green) from bottom to top at all times.

All boxes must be stacked by placing the bottom of one box onto the top of another and not on their sides (and remain so throughout the race).

Pairs:

Rider 1 starts with the white container marked B.

Rider 1 rides to the bin on the centre line, places the container on it, rides to the bin at the changeover end, collects the next container and rides to stack this on top of the first container.

The remaining three containers are collected individually from the bin at the changeover end and stacked on top of the other containers on the bin on the centre line by either rider, provided that the second rider collects and stacks the remaining container(s) (at least one) before riding to cross the Start/Finish line.

During the game, the containers already stacked on the bin on the centre line must read B (white), G (red), A (blue), G (yellow), M (green) from bottom to top at all times.

All boxes must be stacked by placing the bottom of one box onto the top of another and not on their sides (and remain so throughout the race).

Individual:

The rider starts with the red container marked G.

The rider rides to the bin on the centre line, places the container on it, rides to the bin at the changeover end, collects the next container and rides to stack this on top of the first container.

The remaining two containers are collected individually from the bin at the changeover end and stacked on top of the other containers on the bin on the centre line. The rider then rides to cross the Start/Finish line.

During the game, the containers already stacked on the bin on the centre line must read B (white), G (red), A (blue), G (yellow) from bottom to top at all times.

All boxes must be stacked by placing the bottom of one box onto the top of another and not on their sides (and remain so throughout the race).

Reason for Change Request:

Brings consistency to the wording of all games in the rule book and eliminates “grey areas”.

For Internal Use Only:

Actual Adopted New Rule Book Wording:

Team:

Rider 1 starts with the white container marked B.

Rider 1 rides to the bin on the centre line, places the container on it, rides to the bin at the changeover end, collects the next container, rides to stack this on top of the first container, and rides to cross the Start/Finish line.

Rider 2 rides to the bin at the changeover end, collects the next container, rides to stack this on top of the other containers, and rides to cross the Start/Finish line.

Riders 3 and 4 repeat the actions of Rider 2.

During the game, the containers already stacked on the bin on the centre line must read B (white), G (red), A (blue), G (yellow), M (green) from bottom to top at all times.

All boxes must be stacked by placing the bottom of one box onto the top of another and not on their sides (and remain so throughout the race).

Pairs:

Rider 1 starts with the white container marked B.

Rider 1 rides to the bin on the centre line, places the container on it, rides to the bin at the changeover end, collects the next container and rides to stack this on top of the first container.

The remaining three containers are collected individually from the bin at the changeover end and stacked on top of the other containers on the bin on the centre line by either rider, provided that the second rider collects and stacks the remaining container(s) (at least one) before riding to cross the Start/Finish line.

During the game, the containers already stacked on the bin on the centre line must read B (white), G (red), A (blue), G (yellow), M (green) from bottom to top at all times.

All boxes must be stacked by placing the bottom of one box onto the top of another and not on their sides (and remain so throughout the race).

Individual:

The rider starts with the red container marked G.

The rider rides to the bin on the centre line, places the container on it, rides to the bin at the changeover end, collects the next container and rides to stack this on top of the first container.

The remaining two containers are collected individually from the bin at the changeover end and stacked on top of the other containers on the bin on the centre line. The rider then rides to cross the Start/Finish line.

During the game, the containers already stacked on the bin on the centre line must read B (white), G (red), A (blue), G (yellow) from bottom to top at all times.

All boxes must be stacked by placing the bottom of one box onto the top of another and not on their sides (and remain so throughout the race).

Reason for Decision:

Brings consistency to the wording of all games in the rule book and eliminates "grey areas".

Implementation Date:	1 st January 2012
