Rule Change Request Document

Name:	Jens Martin
-------	--------------------

Country:	IMGA Rules Committee
----------	-----------------------------

Summary of Change Requested:

Bank Race : Rider 1 rides to the cone, collects a number, rides to the stand etc.

This rule explains that the number must be placed on the hook on the board mounted but may imply it can be removed from the cone dismounted

Windsor Castle is specific that the orb can be removed from the bucket mounted / dismounted.

I have no strong views either way but I feel it needs clarifying whether the number can be removed only mounted or if preferred dismounted to avoid argument.

Current Rule Book Wording:

Team:

Rider 1 rides to the cone, collects a number, rides to the stand, hangs the number on a hook on the board with the black side showing, and rides to cross the Start/Finish line.

Riders 2, 3, and 4 repeat the actions of Rider 1.

Riders must place the number they have taken from the cone from the mounted position (rule CR6.1 does not apply for this action). Numbers already on the board which are displaced may be replaced from the ground.

The numbers may be collected from the cone in any order, but must be hung on the board in the correct position so that it reads 1, 0, 0, 0 from left to right with all numbers showing black.

Individual:

The rider rides to the cone, collects a number, rides to the stand, and hangs the number on a hook on the board with the black side showing.

The rider then rides to collect and hang each of the other numbers individually, and rides to cross the Start/Finish line.

Numbers must be placed on the board from the mounted position (rule CR6.1 does not apply for this action). Numbers already on the board which are displaced may be replaced from the ground.

The numbers may be collected from the cone in any order, but must be hung on the board in the correct position so that it reads 1, 0, 0, 0 from left to right with all numbers showing black.
