

## International Mounted Games Association Rules Committee

---

### *Rule Change Request Document*

Name:	<b>Jens Martin</b>
-------	--------------------

Country:	<b>IMGA Rules Committee</b>
----------	-----------------------------

#### Summary of Change Requested:

First of 5 change requests regarding equipment specifications following experiences with the new equipment specifications this season.

This change comes originally from Pony Materials.

#### Current Rule Book Wording:

##### **Tyre**

Tyre with a width of between 7.5cm and 10cm, and an internal diameter of between 45cm and 51cm.

i.e. a tyre with an identification code where the first digits are in the range 75 to 100 and the last two digits are in the range 16 to 20, e.g. 100/90-16

#### Suggested New Rule Book Wording:

Not provided

#### Reason for Change Request:

- The tire in my opinion is too heavy for young rider, as we saw in Belgium there was a kid of 10 years old in some team, and I saw children with a lot of problem to take the tire and do the game. I think you can change it.

**For Internal Use Only:**

Total In Favour:	<b>3</b>
Total Not In Favour:	<b>3</b>

Result:	Change not Accepted
---------	---------------------

Actual Adopted New Rule Book Wording:

N/A
-----

Reason for Decision:

<p>Any change request requires at least 5 to be in favour.</p> <p>It was felt that even mini's cope perfectly well with tyres as per the current specifications and that there is a suspicion that at the European Championships this season the tyres may have been unusually heavy.</p>
